Summary

Computer science student looking for a 6 months internship / Master thesis, starting February 2021.

Experience

Project manager

ETIC INSA Technologies

Sep 2019 - Sep 2020 (1 year 1 month)

Prospection, pricing, and project management for a junior-enterprise.

Intern

VOSSLOH

May 2020 - Aug 2020 (4 months)

Connected motor project

Data acquisition & analysis for predictive maintenance.

Technologies : Python (pandas, sk learn) Javascript.

Education

EPFL (École polytechnique fédérale de Lausanne)

Master's degree, Computer Science

2020 - 2021

Semester project : Cell-graph technique for feature extraction in tumor images in order to develop personalized treatments.

Courses : Intelligent agents, Image processing, applied data analysis.

INSA Lyon - Institut National des Sciences Appliquées de Lyon

Master's degree, Telecommunications, networks, computer science

Courses : Algorithmic, programming, machine learning, networks, information theory, communication theory, and signal processing.

Skills

Python • C • Microsoft Office • Java • LaTeX • Matlab • Git • Image Processing • Machine Learning • Agent-based Modeling
